

Constipation

Should not be neglected. It leads to many serious troubles. It shows that the important organs of the body are in disorder. The best medicine to take for it is the one that should be taken at once.

HE THINKS THE CANNIBAL HAS THE RIGHT IDEA

"Eating the Right Stuff," British Expert Declares.

London, June 2.—A scientific justification for cannibalism was propounded by Dr. P. G. Hopkins in an address at the Royal Institution here.

"What would be the most efficient protein for men?" he asked. "Clearly, although not a point of practical dietetics, the most sensible person in this connection is the cannibal. In consuming his prey, he is eating exactly the right stuff."

"Though it may seem a gruesome experiment, a worker in Heidelberg has just lately tested the point. He found that a dog, when fed with dog, was able to do with a much smaller quantity of protein than when fed with any other protein whatsoever."

"There is a chemistry of species, and the nearer the to species of animals are together the more nearly does the chemistry of their bodies agree."

WIFE TRIED SUICIDE.

Man and Woman Witness to Tell of Couple's Domestic Life.

Chicago, June 2.—Mystery surrounding the death of Mrs. Nora Jane Clemenson was brought nearer solution today, it is believed, when Captain of Police Thomas Kane announced that he would examine a woman and a man who, he believed, are able to give some information concerning the domestic relations of Dr. Clemenson and his wife. According to Capt. Kane, Dr. Clemenson told him yesterday that Mrs. Clemenson had tried to commit suicide two weeks ago by taking chloroform. When he found her dead on last Saturday he told the burglar story because he did not think a post mortem would be held.

HEROINE OF 16 SAVES 20 LIVES.

Leads Flashes Through Smoke and Flame. Noble Deed in N. Y. Tenement.

New York, June 2.—A pretty 16-year-old heroine saved the lives of five families, including 20 children, risking her own life and urging her fiancé to follow her, in a tenement fire at 711 Horckimer street, Brooklyn, early yesterday.

She was returning from a hall with her escort when the blaze was discovered and lost no time in giving the alarm. She rushed through the burning hallways and upstairs through smoke so dense that she could hardly see her way, and, after being convinced that every person had been aroused, hastened to the street, refusing to give her name when asked, saying: "I haven't done anything," and joining the young man hurried away.

One fireman was seriously injured and six others had narrow escapes.

The fire started in the three-story frame factory building occupied by the Automatic door and sash manufacturing company, 713 Horckimer street, and had enveloped the building when it was discovered by the brave girl and her escort. She at once thought of the peril of the occupants of the tenement next door, and, telling the young man to follow her, without hesitation rushed into the building.

The upper floors and roofs were ablaze and smoke was pouring down the stairways. She went to one part of the building and he to the other and soon all the occupants had been notified of the fire and were escaping in their night clothing down the stairways.

William Steers of engine company 27, while assisting in fire-fighting, a line of hose at the second floor of the factory building, was struck by a sash and knocked from the ladder. He was caught by companions and taken to the street. A physician was summoned and found that the man's injury was serious but not necessarily fatal.

Three firemen of hook and ladder company 41 and three members of engine company 27 were on top of the factory building when an explosion of turpentine caused the roof to cave in. They saved their lives by jumping across a 10-foot alley to a roof 15 feet below. None of them was hurt.

The damage to the buildings and contents was about \$15,000.

Base Ball Notes.

The Boston Globe says that Ray W. Collins, the star "southpaw" pitcher and captain of the university of Vermont base ball team, has come to terms with President John I. Taylor of the Boston Red Sox and will join the Boston team about the middle of this month, or as soon as he gets his diploma. Collins has played four years on the Vermont team, and prior to that was the star twirler of Burlington high school. Larry Gardner, a former captain of the university of Vermont team and debarré from playing this year, will also join the Red Sox as soon as he gets his diploma. Gardner was "fanned out" by Boston to Lynn last summer.

Blind Statesman in Tariff Speech Gets Under

THE SENATORIAL CUTICLE

Assails Cotton Mill Owners—Infers That Enormous Profits Assured by Means of Purchased Senators—Senate Starts Night Sessions.

Washington, June 2.—The Senate, as predicted, started its night sessions on the tariff bill last evening. The Senate yesterday morning adopted, without further contest on the part of the minority, Senator Aldrich's resolution providing for these: "Under this resolution the Senate will be in session ten hours daily—from 10:30 a. m. to 5 p. m., and from 8 to 11 o'clock p. m. Senator Aldrich said he believed not more than a week of night sessions would be necessary. According to a number of senators and representatives who have been questioned about the matter, at least another month's work will be necessary. Senator Aldrich still professes to think the measure will go to the president and become a law by July 1, but many others are not so sanguine. A number think it will be July 15, and some insist it can be found who fix the date as Aug. 1.

Gore's "Buzz Saw" Busy.

Consideration of the cotton schedules brought out a sharp speech from Senator Gore of Oklahoma—the blind senator, who has come to be known as having "a buzz saw on the end of his tongue." He replied to the speech Senator Lodge made Tuesday, showing that many cotton manufacturers of the New England states are making exorbitant profits. He cited a number of companies, and showed that their net earnings or dividends ranged from 30 to 67 per cent. In one case—that of the Dartmouth company—there had been within the last year a special dividend of 100 per cent.

"The Troy Cotton and Woollen company," he said, "in 1907 declared a dividend of 67 per cent, though it was as

serted in explanation that part of this was due to sale of real estate."

"I shall demonstrate that the cotton case extended examples of specific increases and their equivalent ad valorem rates, to show that they had been placed higher than in the Dingley law."

GOMPERS CONFERS WITH TAIT. Urges Certain Labor Questions for the Annual Message.

Washington, June 2.—Samuel Gompers, president, and Frank Morrison, secretary of the American Federation of Labor, had a further conference with President Tait yesterday regarding the matters affecting organized labor which were presented to the president by the executive council of the federation several weeks ago. The recommendations of the council cover a wide range of subjects which it is desired to have the president take up in his annual message to Congress in December.

Mr. Gompers sails for Europe June 10. He has been informed that the court of appeals of the District of Columbia will not render a decision in the contempt cases in which he is one of the defendants until the October term.

BANK'S FUNDS \$137,000 SHORT. The Loss, However, Made Good in Lewiston, Idaho.

Lewiston, Idh., June 2.—National Bank Examiner Claude Gatch is authority for the statement that a shortage has been discovered in the funds of the Lewiston National bank. It is said that the alleged defalcation amounts to \$137,000. The alleged defalcation has, it is stated, extended over a period of the last five years and it was made possible it is understood by manipulation of the adding machine used in computing the daily balances. Immediately after the condition became known to the bank officials a meeting of the stockholders was called and the entire defalcation made good by them.

The Lewiston National bank and the Idaho Trust company were consolidated about a year ago. The case has been placed in the hands of the comptroller of the currency, who will decide whether any arrests will be made. F. W. Kutenbach, president of the bank, corroborated the statement of Mr. Gatch as to the defalcation having been made good.

GUILTY OF ROSEN MURDER. John Junkins, Negro, Convicted in Centerville, Ia.

Centerville, Ia., June 2.—John Junkins, a negro, was found guilty last night of the murder of Clara Rosen, an Ottumwa choir singer, and was immediately sentenced to be hanged on July 29, 1910. Junkins killed Clara Rosen at Ottumwa on the night of Feb. 5, by beating her to death with a stone. Repeated threats of lynching several times brought about the preparation of troops to protect the negro.

QUEBEC WOULD HOLD PULP. Premier Announces Policy of Government.

Montreal, June 2.—Speaking at a banquet tendered him last evening by the members of the Reform club, Hon. Lomer Gouin, premier of the Province of Quebec, stated that in the future the policy of his government would be to prevent the exportation of pulp wood from crown lands to the United States. Interests of individuals might suffer, but he was convinced that the policy would be beneficial to the people of the province.

The Carpenter-Morton Co., Boston, Mass., were the first point concern to offer Varnish Stains to housekeepers. Campbell's Varnish Stain is the original, first made in 1888, and to-day recognized as the most satisfactory article of the kind upon the market. Reynolds & Son carry a complete stock. Color card for the asking.

DIED AT WAITSFIELD.

Wesley G. McAllister, a Well Known Citizen.

Waitsfield, June 2.—Wesley G. McAllister, a life long resident of this town died yesterday morning after a three days' illness following a shock. It was the second one and from the first his condition was critical.

He was born June 5, 1843 on a farm not far from where he passed the last days of his life. December 30, 1869, he was married to Alma E. daughter of Stephen and Angeline Parker, who with six children survives him. The children are Mrs. Daniel H. Skinner, and Mrs. W. C. Bragg, of Randolph, H. R. V. McAllister, of Denio, Oregon, C. W. McAllister, of Montpelier, and Miss Laura, of East Montpelier. He also leaves two brothers, William and Postmaster Z. H. McAllister of Waitsfield.

He was one of the prominent citizens of the town having held, at different times, a number of the offices and was highly esteemed by every body being well known through the valley. When a young man he became connected with the Masonic orders and has occupied the different chairs in that order. He was a genial natured man who always had a good word for everybody.

The funeral will be held from his late home at 1:30 o'clock Friday afternoon under Masonic direction. The interment will be in the cemetery near his home.

ANARCHISTS AGAINST CHURCH. The Resolution Passed at Leipzig Conference.

Leipzig, June 2.—The Anarchists of Germany are at present in conference here, and the attendance is large. Today the congress adopted a motion declaring that membership in any church

or religious sect was contrary to the principles of anarchism, and calling on all Anarchists to cease their membership in churches. Dr. Friedberg of Berlin read a paper in which he said that the cultural goals of anarchism should be fought by cultural methods. The congress came to an end with the passing of a resolution to attend in large numbers the international Anarchist congress to be held in London in 1910. The discussions yesterday were purely academic, and the police consequently did not interfere.
